Exchange

Whenever you make a currency (including cryptocurrency or precious metal) exchange in the Revolut app, we'll use an exchange rate based on our market data, which is based on foreign-exchange market. There is more information about our exchange rate in our [Crypto Terms](#), [Personal Terms](#), [Precious Metals Terms](#) and [Business Terms](#).

For certain exchanges we add a percentage (a mark-up), which changes according to when and how frequently the currencies are traded. These are set out below.

The exchange rate for cryptocurrency includes our fee for our Crypto Services. This fee is 1.5% for Premium and Metal users (and 2.5% for Standard users). We don't charge you any other fees for this service.

We charge a fee of 1% for exchanges on weekends and bank holidays (in London) because exchange markets are generally closed and less currency and precious metals are traded during these times. We may charge this fee if exchange markets are closed at other times too. You can avoid these fees by making your exchange on a weekday.

We charge a fee for cryptocurrency exchanges. This fee is 2.5% for Standard and Plus users (and 1.5% for Premium and Metal users). We don't charge you any other fees for this service.

The exchange rate for precious metals does not include our fee for our Precious Metal Services. This fee is 1.5% for Standard and Plus users (and 0.25% for Premium and Metal users) and is shown separately in the app when you make an exchange. We don't charge you any other fees for this service.
