Conversation Starters and Questions to Ask:

- Given my financial situation, should I choose a brokerage service? Why or why not?

- What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

What Fees Will I Pay?

Revolut Securities accounts require no minimum balance to maintain, and charge no commission fees for executing buy and sell orders. The costs you may incur for our brokerage services are Exchange and Regulatory fees that we pass directly to you. Although Revolut Securities does not charge commissions, Revolut Securities makes money on your trades, such as from payment for order flow. The more you trade, the more money we make. Revolut Securities also receives revenue from a monthly subscription-based fee charged by Revolut Technologies Inc to clients who have enrolled in Revolut Premium and Metal Plans. See [here](#) for fees. To open a Revolut Securities Inc account, you must first open a card account through our affiliate, Revolut Technologies Inc, and our partner bank. Fees apply to certain services through your card account.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. More information about our fees may be found [here](#).

Conversation Starters and Questions to Ask:

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

Our response to this question can be found [here](#).

What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?

Revolut Securities *does not* provide recommendations. The way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the services we provide you. Here are some examples to help you understand what this means:

Specifically, we receive a portion of the payment for order flow (PFOF) earned by our carrying partner, DriveWealth, for directing your orders to execution venues. For additional information, please see our carrying broker-dealer's (DriveWealth) 606 Report [here](#).
